# The National Football League

## RULES OF MAJOR LEAGUE FOOTBALL SUMMARIZED BY WILFRID SMITH

Professional football, in the past three seasons, has altered the code of rules under which colleges and universities play the game. The changes have not been numerous but they have been important.

The most important change permits forward passes to be thrown from any point behind the scrimmage line. The college rule permits forward passes from any point FIVE yards behind the scrimmage line.

In professional football the goal posts are on the goal lines.

Professional football declined to adopt the "dead ball" rule of the collegiate code.

Flying blocks and flying tackles are permitted in the professional game. The professional rule against clipping, that is, knocking down an opponent from the rear, is strictly enforced. The penalty is loss of 25 yards, as compared with the collegiate rule which penalizes infractions with the loss of 15 yards.

Professional players may be stationed any place on the field so long as they do not advance within 10 yards of the ball before it is kicked.

At the kickoff, the pros may kick from a dirt tee.

Substitute players may communicate with their teammates immediately on entering the game. Coaches must be notified when the limit of three times-out have been taken in a half.

When the ball carrier is run out of bounds or is tackled at any point within 15 yards of the side line, the ball will be placed in play at a corresponding point 15 yards from the side of the field.

Offside penalties on the defense within its own 10 yard line have been minimized. Instead of loss of five yards, customary rule, the penalty in this area now is half the distance to the goal.

### Here are the two most important changes in the pro rules for this fall:

1. A fumbled ball, except fumbles resulting from lateral passes, may be advanced by either team, no matter whether the ball strikes the ground or not. On fumbled laterals, the rule remains the same. The offense may recover and advance; the defense only may recover unless the ball is caught in the air. Then it may be advanced. Fumbled kicks may be recovered by the kicking team. They cannot be advanced unless the receiver of the kick gains possession and then fumbles when tackled.

2. The penalty for two forward passes on the same down has been changed. In the past there have been several instances where a forward pass was completed successfully and after the ball had been advanced for a long gain, an attempted lateral pass actually became a second forward pass. Under the collegiate rule the ball is brought back to the point at which it originally was put into play. The new professional rule provides for a loss of FIVE yards from the point at the second and illegal forward pass.

A second incomplete forward pass in the end zone constitutes a touchback and loss of the ball to opponents on their 20 yard line. This is the rule in the collegiate code. It also is the professional rule unless the second incomplete pass into the end zone is thrown when the ball was put into play from a point back of the opponents' 20 yard line. In this case the ball passes over to the opponents at that point rather than the 20 yard line.
