**SPECIAL NOTE.**—National Football League games this season are played under the same rules that governed 1931 play with but two exceptions. Of the many changes made in the college rules only two proved acceptable to the professional circuit. One is that providing for substitutions every quarter instead of once a half. The other change was that in equipment making hard pads illegal. National League officials were of the opinion that the rules as they stood in 1931 needed no changes and felt also that football followers would like to see the code as it stood given a more thorough trial before extensive alterations.
